

Acland's Video Atlas of Human Anatomy

3D Rotational Gross Anatomy Videos Featuring Real Cadaver Specimens

- Comprehensive 3D video atlas of fresh anatomic specimens in their natural color
- Ideal for preparation and review in human/gross anatomy courses and lab environment
- 360 view of specimens accompanied by clear narration and labeled structures
- Quickly navigate to desired sections by region or via A-Z index
- Choose between the complete 5-volume collection or specific body region
- Available online and optimized for mobile devices

Acland's Video Atlas of Human Anatomy is the optimal anatomical learning solution. Watch and listen to world-renowned anatomist Dr. Robert Acland—Professor Emeritus of Surgery, University of Louisville School of Medicine—as he shows and explains anatomical movement within each region of the body – covering bones, muscles, tendons, organs and more.

Available online, this atlas is a perfect resource for any institution's residents, faculty and students within medical, nursing, physician assistant, physical/occupational therapy, speech/language and dentistry programs. Acland's Video Atlas of Human Anatomy provides foundational information to supplement the learning and teaching they receive in the classroom and in practice.

Why Acland's Video Atlas of Human Anatomy?

- Support the teaching and learning of anatomy more than 300 narrated videos
- Coverage includes upper extremity, lower extremity, trunk, head & neck and internal organs; plus, brand new ground-breaking inner ear content
- Allow students independent, frequent viewing for review, self-assessment and practical exam preparation - as well as track their performance using interactive Q&A and timed or review quizzes
- Demonstrate muscle function in 3D to colleagues, staff, and patients
- Browse video clips, share with colleagues and add to a "favorites" area for quick reference
- Download PDF transcripts for use in teaching guides and patient handouts
