ZMIANY w MeSH 2017

2017 Changed MeSH Headings

Smilacina

Tooth Movement

For the following 35 MeSH headings the preferred term was replaced by another term in the record.

record.	
Replaced Term	Replaced-by Term
Anoxia	<u>Hypoxia</u>
B-Cell-Specific Activator Protein	PAX5 Transcription Factor
Bicyclo Compounds	Bridged Bicyclo Compounds
Bicyclo Compounds, Heterocyclic	Bridged Bicyclo Compounds, Heterocyclic
Blueberry Plant	Blueberry Plants
Body, Physical Appearance	Physical Appearance, Body
Bridged Compounds	Bridged-Ring Compounds
Camels	<u>Camelus</u>
Chitinase	<u>Chitinases</u>
Consumer Participation	Community Participation
Dislocations	Joint Dislocations
Drug-Induced Liver Injury	Chemical and Drug Induced Liver Injury
G0 Phase	Resting Phase, Cell Cycle
Gizzard	Gizzard, Avian
Great Britain	United Kingdom
Guanylate Kinase	Guanylate Kinases
Heterocyclic Compounds with 4 or More Rings	Heterocyclic Compounds, 4 or More Rings
Institute of Medicine (U.S.)	National Academies of Science, Engineering, and Medicine (U.S.) Health and Medicine Division
Lecithin Acyltransferase Deficiency	Lecithin Cholesterol Acyltransferase Deficiency
Microfilaria	<u>Microfilariae</u>
Mild Cognitive Impairment	Cognitive Dysfunction
Obsessive Hoarding	Hoarding
Odors	<u>Odorants</u>
Organic Anion Transport Polypeptide C	Solute Carrier Organic Anion Transporter Family Member 1b1
Pharmacists' Aides	Pharmacy Technicians
Pneumocytes	Alveolar Epithelial Cells
Polycyclic Hydrocarbons, Aromatic	Polycyclic Aromatic Hydrocarbons
Prostitution	Sex Work
Psilocybine	<u>Psilocybin</u>
Renal Osteodystrophy	Chronic Kidney Disease-Mineral and Bone Disorder
RNA Recognition Motif (RRM) Proteins	RNA Recognition Motif Proteins

Maianthemum

Tooth Movement Techniques

Drimia

2017 Deleted MeSH Headings

The following 42 MeSH headings were deleted in 2017 MeSH.

Replaced Term Replaced-by Term

Agavaceae <u>Asparagaceae</u>

Astronomical Processes <u>Astronomical Phenomena</u>

Bacterial Processes

Biochemical Processes

Biochemical Phenomena

Biochemical Phenomena

Biological Processes

Biological Phenomena

Biophysical Phenomena

Biophysical Phenomena

Blood Physiological Processes <u>Blood Physiological Phenomena</u>

Cardiovascular Physiological Processes <u>Cardiovascular Physiological Phenomena</u>

Cell Physiological Processes <u>Cell Physiological Phenomena</u>

Chemical Processes <u>Chemical Phenomena</u>

Dental Physiological Processes <u>Dental Physiological Phenomena</u>

Digestive System Processes

Ecological and Environmental Processes

Ecological and Environmental Phenomena

Ecological and Environmental Phenomena

Electrophysiological Processes <u>Electrophysiological Phenomena</u>

Food Habits <u>Feeding Behavior</u>

Functional Behavior, Psychology <u>Behavior</u>

Genetic Processes

Genetic Phenomena

Geological Processes

Geological Phenomena

Immune System ProcessesImmune System PhenomenaImmunogenetic ProcessesImmunogenetic Phenomena

Lotus <u>Loteae</u>

Mechanical Processes <u>Mechanical Phenomena</u>

Metabolic Phenomena <u>Metabolism</u>

Microbiological Processes <u>Microbiological Phenomena</u>

Musculoskeletal Physiological Processes

Musculoskeletal Physiological Phenomena

Nervous System Physiological Phenomena

Nervous System Physiological Phenomena

Nutrition Processes <u>Nutritional Physiological Phenomena</u>

Plant Physiological Processes

Pneumocystis jirovecii

Reproductive Physiological Processes

Respiratory Physiological Processes

Skin Physiological Processes

Tetrachlorodibenzodioxin

Urinary Tract Physiological Processes

Virus Physiological Processes

Plant Physiological Phenomena

Pneumocystis carinii

Reproductive Physiological Phenomena

Respiratory Physiological Phenomena

Skin Physiological Phenomena

Polychlorinated Dibenzodioxins

Urinary Tract Physiological Phenomena

Virus Physiological Phenomena

2017 Entry Combination Revisions

There are 12 new Entry Combinations for 2017.

Previous MeSH Heading/Subheading (Entry Combination)

Anterior Cruciate Ligament/injuries

Cardiovascular Diseases/rehabilitation

Fascia/surgery

Growth Plate/injuries

In Vivo Dosimetry/instrumentation

Menisci, Tibial/injuries

Myocardium/diagnostic imaging

Peripheral Blood Stem Cells/transplantation

Rotator Cuff/injuries

School Teachers/education

Shoulder/injuries

Stroke/rehabilitation

Replaced-by Heading for

Anterior Cruciate Ligament

Injuries

Cardiac Rehabilitation

Fasciotomy

Salter-Harris Fractures

Radiation Dosimeters

Tibial Meniscus Injuries

Heart/diagnostic imaging

Peripheral Blood Stem Cell

Transplantation

Rotator Cuff Injuries

Teacher Training

Shoulder Injuries

Stroke Rehabilitation

Zmiany w określnikach w 2017 roku:

2017 – usunięto: radiography, radionuclide imaging, ultrasonography; zastąpiono je przez diagnostic imaging
